ENVIRONMENTAL PERFORMANCE

Past Accomplishments

Sordoni Skanska has demonstrated its commitment to environmental performance in the areas of reduced waste and reduced discharges of sediment to water. Since 1997, the company has:

- **Reduced solid waste** by implementing programs for recycling construction and demolition debris. Over 20,000 tons of wood, concrete, brick, asphalt, batteries, and metal have been recycled.
- **Reduced discharges of sediment** by implementing a management program to identify requirements for sediment control.

Future Commitments

Sordoni Skanska has also committed to continued environmental improvement. By 2003, the company will:

- **Reduce solid waste** by expanding efforts to recycle construction and demolition debris. The company will increase awareness among employees, work with subcontractors and suppliers, and monitor recycling activities.
- **Reduce discharges of sediment** by improving training and management audits.
- **Improve product performance** by building more sustainable projects. The company will train employees on sustainable design practices and work with project owners and architects to promote the use of recycled building materials, natural day lighting, and energy efficient HVAC systems, and the protection of existing trees at building sites.
- **Preserve habitats** of endangered species and wetlands training employees on recognizing and protecting ecologically-sensitive areas.

COMMUNITY OUTREACH

Community outreach at individual projects are conducted primarily by site owners, however, Sordoni Skanska works closely with owner to ensure that communication protocols are established and followed. Sordoni publishes an annual environmental report on their performance according to key environmental indicators for the construction industry. Sordoni develops and distributes marketing materials, newspaper and industry publications, and other reports that communicate their environmental performance. The company's annual performance report will be available at www.sordoni.com.
